

INTERNSHIP REPORT ON GRAPHIC DESIGN INTERNSHIP

Submitted

To

School of Computer Science and Engineering (SCS)

IILM University, Greater Noida, U.P.

In partial fulfilment of the requirement of degree of

B.Tech CSE

By

Roll Number of Student: 25SCS1003000525

Name of Student: ADITYA KUMAR

Batch: 2025-29

Internship Period: 07 August 2026 – 20 August 2026

Duration: 2 Weeks

Organisation: InAmigos Foundation

Candidate's Declaration

I, ADITYA KUMAR, do hereby declare that the internship report titled “Graphic Design Internship at InAmigos Foundation” has been completed by me to fulfil the requirement for the award of the degree of Bachelor of Technology in CSE. The report presents the work and learning undertaken during my internship with InAmigos Foundation. All references used in preparing this report have been acknowledged appropriately. I affirm that this report is my own work and has not been submitted to any other institute for any degree/diploma requirement. I shall be solely responsible for any kind of copyright violation in this regard.

Student Name: ADITYA KUMAR

Roll No.: 25SCS1003000525

Acknowledgement

I take this opportunity to express my sincere gratitude to everyone who supported and guided me throughout my internship program. I am thankful to the management, coordinators and members of InAmigos Foundation for providing me with the opportunity to participate in Project SEWA and to understand the practical importance of community-oriented work.

The internship gave me an opportunity to contribute to activities related to food and clothing distribution, fundraising, communication and awareness. An important learning experience was understanding the importance of funds in enabling social initiatives to function effectively. I am grateful for the guidance, constructive feedback and encouragement that helped me improve my communication, teamwork, creativity and sense of responsibility.

I also express my heartfelt gratitude to my faculty members and the School of Computer Science and Engineering, IILM University, Greater Noida, for their academic support and encouragement. Finally, I express my gratitude to my parents for their constant blessings and support.

4. Project Description

4.1 Introduction

The internship was completed as a Graphic Design Intern at InAmigos Foundation from 7 August 2026 to 20 August 2026. The work focused on creating and supporting visual communication for social-impact activities, with Project SEWA – Food & Clothing Distribution as an important project theme.

The internship involved awareness content, graphic-design work, fundraising-related communication and teamwork. It helped me understand how design can communicate a social cause clearly and encourage people to participate or contribute.

4.2 Organization Profile

InAmigos Foundation was the organisation for my two-week Graphic Design Internship. During the internship, I worked on communication and creative activities connected with the foundation's social-impact initiatives, including Project SEWA.

4.3 Problem Statement

Many people in need face difficulty in accessing basic necessities such as adequate food and clothing. Although social organisations and volunteers work to support such communities, effective distribution requires awareness, resources, coordination and sufficient financial support. The project addressed this practical challenge by contributing to activities related to food and clothing distribution and by supporting awareness and fundraising efforts.

4.4 Project Objectives

- To understand the practical functioning of a social-impact internship project.
- To contribute to Project SEWA's food and clothing distribution activities.
- To understand the importance of fundraising and financial resources for social initiatives.
- To develop communication and teamwork skills through coordinated internship activities.
- To create and support awareness-oriented content related to the project's objectives.
- To gain practical experience in planning, coordination, responsibility and professional communication.

4.5 Scope of the Project

The scope of the internship included participation in activities connected with Project SEWA, particularly food and clothing distribution, awareness, communication and fundraising support. The project also included creative and promotional work where required, such as preparing or supporting poster/reel content and communicating the social impact of the initiative.

The project scope was primarily focused on learning and contribution rather than developing a software product. Accordingly, the technical section documents the digital and communication tools used during the internship rather than presenting a conventional software system.

I worked on visual and communication tasks for InAmigos Foundation. The work included designing or supporting awareness material and presenting social-impact messages in a clear, simple and engaging way.

Project SEWA – Food & Clothing Distribution was a key theme of the internship. The creative work helped communicate the importance of providing basic necessities to people in need.

The internship also gave me practical exposure to fundraising communication and helped me understand the importance of funds and resources for social initiatives.

4.5.1 Awareness and Short-Form Content

I worked on awareness-oriented creative content, including poster and short-form reel concepts. This improved my understanding of visual hierarchy, concise messaging and audience-focused design.

4.5.2 Skills and Professional Learning

The internship improved my graphic-design, creative-thinking, communication, teamwork and task-management skills. It also taught me how feedback can be used to improve creative work.

4.6 Technologies and Tools Used

- Digital communication platforms for coordination and professional communication.
- Graphic/content-creation tools for awareness posters and promotional material.
- Video/reel editing tools for short-form awareness content.
- Social-media platforms for communication and awareness activities, where applicable.
- Email and messaging tools for internship-related communication and submission of work.

4.7 System Architecture

As this was a graphic-design and social-impact internship rather than a software development project, the project process can be represented as a simple communication workflow:

- Identification of need and project requirements
- Planning and coordination of activities
- Resource mobilisation and fundraising support
- Collection/arrangement of food and clothing resources

- Awareness and communication
- Distribution to beneficiaries
- Documentation, reflection and reporting

Figure 4.1: Process Architecture of Project SEWA

Project requirement → Design planning → Content creation → Review → Final submission

4.8 Methodology

The internship followed a practical workflow of understanding the assigned task, planning the design, creating the content, taking feedback, making improvements and submitting the final work.

1. Orientation: Understanding the organisation, internship expectations and Project SEWA.
2. Task Planning: Understanding assigned activities and planning the work required for completion.
3. Content and Communication: Preparing or supporting awareness-oriented communication and creative content.

5. Project Participation: Contributing to activities associated with food and clothing distribution.

6. Review and Improvement: Taking feedback, improving submitted work and maintaining professional communication.
7. Documentation: Recording learning, outcomes and supporting evidence for the internship report.

Internship Execution Summary: The internship progressed from orientation and understanding the organisation's communication requirements to planning creative tasks, preparing awareness-oriented material, supporting Project SEWA communication, participating in fundraising-related efforts, reviewing work and documenting the learning

gained. The two-week period followed an iterative process of understanding the objective, creating or supporting the communication, receiving feedback, improving the output and recording the final work.

4.9 Expected Outcomes

- Better understanding of how social-impact projects are planned and executed.
- Practical exposure to food and clothing distribution activities.
- Improved communication, teamwork and coordination skills.
- Improved awareness of fundraising and resource mobilisation.
- Experience in preparing awareness-oriented creative content.
- Greater professional responsibility, discipline and confidence in working with an organisation.
- A documented understanding of the social impact and learning gained during the internship.
